SUMMARY

iOS Developer with 4+ years of experience designing and delivering mobile apps across fintech, social media, healthcare, and real estate. Proficient in Swift, SwiftUI, Firebase, and RESTful APIs. MSc Software Engineering with Distinction (Staffordshire University, UK). Track record of owning complete features end-to-end — from architecture to App Store delivery.

SKILLS

Languages: Swift, SwiftUI, UIKit, Objective-C, Python, Dart, PHP, JavaScript

Frameworks & Tools: Firebase, Core Data, REST APIs, Stripe, Apple Maps, Google Maps, Sign in with Apple/Google

Architecture & Practices: MVVM, Agile/Scrum, Git, Xcode, team leadership

EXPERIENCE

iOS Developer – Srishti Innovative Nov 2020 – Aug 2022

- Built and delivered 6 iOS apps across fintech, social, healthcare, booking, and matrimony domains for US, Australian, Israeli, and Indian clients
- **ExtraHourz**: US-based job portal for discovering nearby gigs; integrated Firebase, Apple Maps, and Sign in with Apple/Google
- **Centavizer**: Marketplace app with a redeemable coin system; sole developer for marketplace module, shopping basket, and Stripe payment integration; led full UI redesign of the entire application
- **EasyBooking**: Appointment booking platform for salons and spas with service selection and calendar management
- **Maternia**: Pregnancy health tracking app with metric logging and guided tutorials for expecting mothers
- **TimeBox**: Social media app for close friends and family featuring VOIP calling, real-time messaging, and scheduled future message/media delivery
- **Nikah in Kerala**: Matrimony app for young people in Kerala to find and connect with potential partners
- Managed client App Store accounts and handled app submissions and releases
- Introduced SwiftUI to new projects, driving adoption of modern iOS development practices
- Led a team of 4 developers; delivered all projects on schedule using Agile methodology and MVVM architecture

iOS Developer – Brokwill Technologies Jun 2019 – Oct 2020

- **Kntree**: Family tree app with relationship mapping, a social news feed for relatives, and in-app chat supporting media and file sharing
- **InvStars**: Real estate investment club platform for the Australian market; enabled project listings, member enquiries, agent connections, and in-app chat
- **Exless**: Industry-first loyalty program for the collision repair sector; provided members with insurance excess discounts, exclusive deals, and vehicle information
- Designed UI/UX, maintained code quality, and delivered all apps within deadlines

Web Developer & Motion Graphics Designer – Ezek Digital Oct 2017 – Jun 2019

- Built responsive websites using PHP and JavaScript; created motion graphics and video ads for clients
- Managed end-to-end project delivery from requirement gathering to deployment

iOS Developer – Mobtecnica Consultancy Mar 2017 – Sep 2017

- Developed iOS applications using Objective-C and Swift
- **Alerts Buddy**: School management app for planning and organising events, and communicating with parents

EDUCATION

MSc Software Engineering (Distinction) — Staffordshire University, UK Sep 2022 – Nov 2023

- Dissertation: developed a deep learning-based tool to automatically detect and improve code quality issues in Java projects

B.Tech Computer Science — MG University. 2015

PERSONAL PROJECTS

- **Wayspot** ([App Store](#)) — Full-stack travel app built with SwiftUI and a Vapor/Fluent backend; features tourist destination detail views, navigation and server-driven content; demonstrates end-to-end ownership across mobile and server-side development
